## PROFESSIONAL SUMMARY

Gold Medalist Software Engineer with 1+ year of hands-on experience specializing in MERN PERN stacks and Next.js. Proven track record in developing robust RESTful APIs, optimizing backend performance with Redis caching, and implementing secure OAuth2 workflows. Passionate about Generative AI (production-grade RAG pipelines) and actively expanding skills in AWS cloud deployment and Docker containerization.

## EDUCATION

**University of Mianwali** 2022 – 2026  
*BS Software Engineering — Batch Top Performer (CGPA: 3.75/4.00)* Mianwali, Pakistan

## PROFESSIONAL EXPERIENCE

**Full Stack & AI Frontend Developer (Intern)** 2025 – 2026  
*10Pearls & Flyrnak AI* Remote

- Contributed to full-stack development, collaborating on sprints and implementing clean, scalable code across MERN stack projects.
- Built responsive React.js interfaces, integrated RESTful APIs, and leveraged AI-assisted workflows for efficient development at Flyonak AI.

## PROJECTS

**CryptoPulse Engine – Scalable Metrics Layer** 2026  
*Node.js, Docker, Nginx, Redis, MongoDB, React, Artillery* [GitHub](#)

- Architected a fully containerized real-time metrics system using Docker, Nginx reverse proxy, Redis caching, and MongoDB.
- Load-tested with Artillery, achieving 279 req/sec at 100% success rate under concurrent traffic.

**CLICS – Centralized Loan Information & Comparison System (FYP)** 2025 – 2026  
*MERN, LangChain, FastAPI, Python, Scrapy, Tailwind CSS* [Live](#)

- Built an automated loan comparison platform using Scrapy & Selenium for multi-source data aggregation.
- Developed a production-ready RAG chatbot with LangChain + FastAPI for intelligent loan guidance.

**StudentHub – Mianwali Students Hub** 2026  
*Next.js, Clerk, UploadThing, Tailwind CSS* [Live](#)

- Built a free academic community platform offering semester-wise notes, study requests, confessions, and lost & found.
- Integrated Clerk authentication, UploadThing storage, CGPA calculator, FYP guide, competitions, and alumni mentorship.

**Elite Science Academy (Freelance)** 2026  
*MERN Stack, Redis, OAuth2, Google Maps* [Live](#)

- Developed a secure MERN portal with Redis caching and OAuth2-protected admin tools.
- Added online registration flow and Google Maps integration for seamless user onboarding.

**Additional Projects:** [AgriConnect \(Live\)](#) — [Productify \(Live\)](#) — [AI Interview Coach](#) — [AI Journal](#)  
(AI Interview Coach & AI Journal: LangChain + Hugging Face + FastAPI — CV/job upload, mismatch analysis, career chatbot & report generation)

## TECHNICAL SKILLS

**Frontend:** JavaScript (ES6+), React.js, Next.js, Tailwind CSS, GSAP, Zustand, TanStack Query  
**Backend & Cloud:** Node.js, Express.js, FastAPI, Python, RESTful APIs, LangChain, RAG Pipelines, AWS, Docker  
**Databases:** MongoDB, MySQL, PostgreSQL, Redis  
**Security & Tools:** OAuth2, Helmet.js, Clerk, Git, GitHub, Postman, Figma

## ACHIEVEMENTS & CERTIFICATIONS

- Gold Medalist & Batch Top Performer** – Software Engineering, University of Mianwali (CGPA 3.75)
- National Skill Competency Test (NSCT)** – Ranked in Top 6.7% Nationally (93.3 Percentile)
- AI Fundamentals by IBM (Coursera)** — **Generative AI Link** — **Credential Link**
- AI for App Building (Coursera)** — **Credential Link**
- Professional Graphic Designer** – 2-month certification course at K-Hangar Center
